

Long-acting and combination inhalers for COPD This is not a comprehensive list of all drugs used in COPD, but summarises those commonly used. Prices are correct for 1 month's use as checked in May 2017 but change frequently. Doses from the BNF.

THIS PAGE: COMBINED INHALERS

pMDI or mist <i>(NOT ranked by inspiratory effort required: all need similar and minimal inspiratory effort)</i>		Drug/class	Dry powder devices <i>(all require more inspiratory effort than pMDI/mist inhalers, and are listed within each group by inspiratory effort required (from top (least) to bottom (greatest))</i>	
ONCE daily dosing	TWICE daily dosing	LAMA/LABA	ONCE daily dosing	TWICE daily dosing
Spiolto Respimat 2.5/2.5 (£32) TWO puffs ONCE daily		Tiotropium & olodaterol	None	
-	-	Glycopyrronium & indacaterol	Ultibro Breezhaler 43/85 (£32) ONE puff ONCE daily	
-	-	Umeclidinium & vilanterol	Anoro Eliпта 55/22 (£32) ONE puff ONCE daily	
-	-	Aclidinium & formoterol		Duaklir Genuair (340/12) (£32) ONE puff TWICE daily
ONCE daily dosing	TWICE daily dosing	ICS/LABA	ONCE daily dosing	TWICE daily dosing
-	-	Fluticasone PROPIONATE & salmeterol		Seretide 500/50 Accuhaler (£40) ONE puff TWICE daily
-	-	Fluticasone FUROATE & vilanterol	Relvar Eliпта 92/22 (£22) ONE puff ONCE daily	
-	-	Budesonide & formoterol		DuoResp Spiromax 160/4.5 or 320/9 (both £30) 320/9 TWICE daily
-	-			Symbicort turbohaler 200/6 or 400/12 (£38) 400/12 TWICE daily
		pMDI Fostair 100/6 (£29) Do NOT use 200/6 device Dose: 200/12 TWICE DAILY	Beclometasone & formoterol	Fostair NEXThaler 100/6 (£29) Do NOT use 200/6 device Dose: 200/12 TWICE DAILY
ONCE daily dosing	TWICE daily dosing	ICS/LABA/LAMA	ONCE daily dosing	TWICE daily dosing
		Trimbow (£44.50) TWO puffs TWICE daily Beclometasone, formoterol & glycopyrronium	Various: see individual inhalers	Trelegy Eliпта (£44.50) ONE puff ONCE daily Fluticasone furoate (92mcg), vilanterol & umeclidinium

N.B. Do not confuse the two fluticasones: 92mcg of fluticasone FUROATE is equivalent to 500mcg of fluticasone PROPIONATE.
